Bei Mehrfachbestellung werden die Versandkosten anteilig erstattet. - Praise for Rapid J2EE Development "The author provides a good survey of the technologies and approaches for rapid development in the J2EE arena. He touches on all areas that should be of interest to a reader, from design through testing. He illustrates the different phases of rapid development by going into several technologies in depth, and he also lists or otherwise mentions other available technologies. I would recommend this book to anyone looking to get started with developing J2EE applications." 395 pp. Englisch.
