Many students have forgotten, or never learned, the basic grammatical concepts needed for studying Biblical Hebrew. Explanations of these concepts in Hebrew grammar textbooks are either too skimpy or too complex. Grammatical Concepts 101 for Biblical Hebrew fills this gap. In this complement to standard classroom grammars, veteran language instructor and Hebrew scholar Gary Long revisits English grammar in order to teach more effectively concepts that are specific to Hebrew. Arranged to supplement teaching grammars, each chapter takes up individual concepts, first explaining how the concept works in English, then illustrating its use in Biblical Hebrew. Long explains, for example, voice, tense, aspect, mood, participles, independent and dependent clauses, adjectives, adverbs, pronouns, even discourse analysis and translation theory in easy to understand language. Abundant English and Hebrew examples illustrate each concept, most of them visually analyzed. Glosses and translations help students grasp the Hebrew examples.
