Reviews

This published book is wonderful. It is really simplified but unexpected situations within the fifty percent of the ebook. Once you begin to read the book, it is extremely difficult to leave it before concluding.

2011. Hardcover. Book Condition: New. 258 As living beings we are very much acquainted with life but to us life is still a principle shrouded in mystery only. Even after our philosophical quest for a few thousand years life is still forcing us to use only figurative language to explain it. We are yet to find answers to the questions -What is life? How does it evolve and why? In this book the author has made a serious attempt to find answers to the above questions. He has formulated a hypothesis through which he has shown how the primordial stuff or the first principle behind the cosmos gives rise to the principle of life as its log Contents:- Contents # Preface 9: 1.
